

Blueridge Bernedoodles

Blueridge Bernedoodle Guarantee

I, Blueridge Bernedoodles, guarantee up to 24 months after the date of sale against all genetic illness to your puppy. If a genetic illness should occur in this time frame. I will require proof from your vet with a diagnosis. I, Blueridge Bernedoodles have the right to x-ray, health test your puppy before refunding you. If this were to occur, I will either replace the dog with one of equal value or reimburse you the cost of your puppy. I will not pay any shipping costs or veterinary costs in this event.

The puppy must be spayed/neutered by 11 months of age, proof from veterinarian must be sent to Blueridge Bernedoodles before 12 months of age for this guarantee to be valid.

Buyer of puppy must be responsible, and properly take care of their puppy/dog. Proper shelter, food, exercise, and training is required. I do understand that there are times when a dog owner can no longer take care of their dog. If this were to happen then the dog owner is to return the dog to Blueridge for rehoming. Dog owners are not to take their dog to a dog pound. I am a responsible Breeder and I want to ensure that my puppies go to loving and caring homes, to people that genuinely care about their dog.

If the puppy is returned 2 weeks after leaving Blueridge up to 50% refund will be given. If the dog is returned later than 2 weeks no refund shall be given.
